

QB House is the new concept Quick Barger's.
 Ten min. cost 1000 yens = about 9 euros ! Red lamp meaning more than 15 min. waiting, yellow = 5-10 min. waiting, green = right now !

The location of QB House is in front of rest room of subway stations because, see yourself in a mirror when you wash your hands in WC and think aloud “ Better to cut the hair ? A little bit too long now ...!?” and you can find QB House leaving from WC... easily understanding if it is possible to have a service right now or how long you have to wait... and it is very cheap so, let's try it !
